2023 INFINITY[®] SYSTEM HEAT PUMPS

Outstanding comfort,
up to 22.0 SEER2 and
up to 10.5 HSPF2 ratings

Models 25VNA4, 25VNA8

DESIGNED WITH YOUR COMFORT IN MIND

Carrier Infinity System heat pumps represent years of design, development and testing with one goal in mind – maximizing your family’s comfort. Along the way, we have taken the lead in creating new technologies that deliver the outstanding quality and energy efficiency you demand while staying ahead of industry trends and global initiatives.

Breakthroughs like variable-speed technology, enhanced humidity control, smaller cabinet sizes and units designed specifically for the rigors of coastal area installations, mean there’s a model tailored to your needs. And, for year-round efficiency with both gas and electric heating capabilities, ask about our Hybrid Heat® dual-fuel system. Whether you expect maximum energy savings, maximum comfort, minimal sound or all of the above, Carrier Infinity System heat pumps have you covered.

INNOVATION

Inverter-driven, Infinity System heat pumps with Greenspeed® intelligence can make very subtle adjustments to adaptable-speed components as conditions change. The result is smooth, exceptional comfort, extra energy efficiency, and much greater heating capacity than typical heat pumps.

EFFICIENCY

SEER2 (Seasonal Energy Efficiency Ratio) and HSPF2 (Heating Seasonal Performance Factor) ratings are like your car's MPG – the higher the number, the greater the potential for savings. Infinity System heat pumps offer a range of efficiencies that reach as high as 22.0 SEER2 and 10.5 HSPF2.

DURABILITY

A galvanized steel cabinet, louvered coil guard and baked-on powder paint provide protection against dings, dents and weather-based threats.

HUMIDITY MANAGEMENT

An Infinity two-stage or variable-speed heat pump can be the key to up to 400% more humidity removal from the air in your home.¹ Include an Infinity system control and an Infinity multi-speed indoor unit and let Ideal Humidity System™ technology deliver ideal comfort, all year long.

ENVIRONMENT

Carrier was the first to offer systems with Puron® refrigerant, which does not contribute to ozone depletion. Our century-plus commitment to delivering energy-saving comfort continues with our insistence upon earning ENERGY STAR® designation on most of our Infinity System heat pumps.

SOUND

Carrier Infinity heat pumps heat and cool your home quietly. All models include our Silencer System II™ components that reduce airflow and vibration. The Infinity 24 achieves sound levels as low as 51 dBA - that puts Infinity heat pumps among the quietest in the variable-speed outdoor category.²

LIMITED WARRANTY

To the original owner, Carrier Infinity System heat pumps are covered by a 10-year parts limited warranty upon timely registration. In addition, model 25VNA4 is covered by a 10-year unit limited replacement warranty on compressor failures only. The limited warranty periods are five years if not registered within 90 days of installation except in jurisdictions where warranty benefits cannot be conditioned upon registration. See warranty certificate at carrier.com for complete details and restrictions.

¹ Select models only. Based on Carrier testing. Compared to a single-stage 13.0 SEER system, in worst-case conditions (cool and damp)

² Depends on model combination. Based on Carrier lab testing of Infinity 24 models and AHRI sound level data for competitors' variable-speed outdoor units, published as of 12/19.

THE CARRIER DIFFERENCE

PERFORMANCE

If you could look under the hood of a Carrier Infinity heat pump, you'd see what drives the performance: a serious commitment to quality. Our microtube coil technology saves space and provides lasting comfort with its corrosion-resistant construction. In addition, some models include innovative extras like Greenspeed intelligence.

COMFORT

The inverter manages home comfort based on conditions such as indoor temperature, outdoor temperature, humidity levels, thermostat settings and more. Combined with a variable-speed compressor, the inverter tracks trends and makes intelligent speed and capacity adjustments based on past performance. As a result, this system is designed to deliver the highest possible comfort at the lowest possible energy use.

SERVICEABILITY

The Infinity 24 is the first heat pump to offer Bluetooth® connectivity built-in for enhanced serviceability and software updates at the outdoor unit.³ That means your dealer can troubleshoot, service and even “push” software/firmware updates to the outdoor unit with fewer, if any, trips into the home. And, in some cases, you don't even need to be home.

A RANGE OF COMFORT

Carrier delivers heat pump systems in a range of shapes and sizes. Check out this side-by-side comparison to see how our smart and efficient Infinity System heat pumps measure up against our Performance™ and Comfort™ models.

	Infinity System	Performance Series	Comfort Series
Motor Performance	Variable-speed rotary and variable-speed scroll compressors available	Two-stage and single-stage scroll compressors available	Single-stage scroll compressor
Efficiency	Up to 22.0 SEER2 and 10.5 HSPF2 ratings	Up to 17.0 SEER2 and up to 8.1 HSPF2 rating	Up to 16.0 SEER2 and up to 8.1 HSPF2 rating
Durability	WeatherArmor™ Ultra cabinet protection	WeatherArmor Ultra cabinet protection	WeatherArmor™ cabinet protection
Sound	Silencer System II, dBA as low as 51	dBA as low as 70	dBA as low as 69
Recommended Control*	Infinity system control	ecobee Smart Thermostat, powered by Carrier	ecobee Smart Thermostat, powered by Carrier
Limited Warranty	10-year parts [†] 10-year unit replacement (25VNA4 compressor failure only) [†]	10-year parts [†]	10-year parts [†]

* Control sold separately.

[†] Upon timely registration. The warranty period is five years if not registered within 90 days of installation except in jurisdictions where warranty benefits cannot be conditioned upon registration. See limited warranty certificate for complete details and restrictions.

SYSTEM HIGHLIGHTS

OUR MOST EFFICIENT

Infinity System heat pumps offer true potential for annual savings while providing extra-comfortable heating and cooling. When compared to a standard efficiency heat pump, the Infinity 24 2-ton model can save up to \$77 a year in cooling and up to \$182 a year in heating.⁴

MARKET-LEADING LOW SOUND²

All Infinity System heat pumps include our exclusive Silencer System II feature to quietly heat and cool your home. Our quietest model uses an inverter-controlled variable-speed compressor to fine-tune performance as conditions change, resulting in sound levels as low as 51 decibels. That's quieter than a normal conversation.

OUR MAGIC TOUCH

The Infinity system control is the user-friendly key to unlocking your system's potential. With the Wi-Fi[®] option and optional smart sensor for zoning, you can easily manage temperatures and ventilation in up to eight zones from nearly anywhere using a smartphone, tablet or computer – or let the Infinity system control do it all for you by monitoring your preferences and the conditions outside.⁵

⁴ Values based on the Infinity System 24.0 SEER/13.0 HSPF 2-ton unit combination compared to a 14.0 SEER/8.2 HSPF 2-ton system combination using AHRI[®] data as of February 2020 and estimated national average operating cooling and heating costs.

⁵ Requires Internet connection.

GAIN MORE CONTROL WITH A COMPLETE HOME COMFORT SYSTEM

Control	Fan Coil	Evaporator Coil	Air Purifier	Humidifier	Ventilator
					
Allows precise temperature control and humidity control along with programmable features to further customized your comfort.	The indoor section of your heat pump and should be properly matched to the outdoor unit for improved efficiency and long-term reliability.	Matches to the proper outdoor unit to provide more cooling efficiency and years of reliable service.	Uses Captures & Kills® technology to inactivate 99% of select airborne pathogens trapped by the filter, including coronavirus, bacteria and other pathogens. ¹	Adds moisture to the air, helping keep static and dry skin at bay.	Combines fresh outdoor air with conditioned indoor air for improved air quality.

¹ The Infinity air purifier has demonstrated effectiveness against the murine coronavirus, based on third-party testing (2020) showing a >99% inactivation, which is a virus similar to the human novel coronavirus (SARS-CoV-2) that causes COVID-19. Therefore, the Infinity air purifier can be expected to be effective against SARS-CoV-2 when used in accordance with its directions for use. Third-party testing (2012, 2007) also shows ≥99% inactivation for the type of virus that causes common colds, Streptococcus pyogenes and human influenza. Airborne particles must flow through your HVAC system and be trapped by the Infinity filter to be inactivated at 99%. Learn how it works at Carrier.com/purifier.

MORE THAN A CENTURY OF COOL

In 1902, a determined engineer answered one of mankind's most nagging questions: How do we make hot, sticky, indoor air go away? In creating the world's first modern air conditioning system, Willis Carrier forever changed indoor life, and, more than a century later, the corporation that bears his name takes inspiration from his example.

Carrier strives to improve on our founder's breakthroughs, introducing new technologies that make life at home even cooler. Today, a nationwide network of experts continues to advance Willis Carrier's lifework. Your expert Carrier dealer is equipped to evaluate your home and create a customized system designed around your lifestyle.
