Benefits of PREFERRED SERIES HORIZONTAL HEAT PUMPS

MODEL 38MURA HEAT PUMP
with 40MUAA AIR HANDLER

Ultra-compact for small spaces

The 38MURA compact cabinet can be installed on a roof, under a deck, or on a balcony to save space, or even stacked to provide comfort for larger living spaces or zoned systems. Additionally, the horizontal design of the coils allows for more efficient heat transfer, which can lead to lower heating and cooling bills.

Environmentally-sound

Reliable compressor is designed for use with Puron® refrigerant to provide quiet comfort and years of environmentally-sound, energy-efficient operation.

Better-than-average efficiency

Preferred Series horizontal heat pumps produce up to a 18.0 SEER2 (Seasonal Energy Efficiency Ratio) and 9.2 HSPF2¹ (Heating Seasonal Performance Factor) providing reliable, money-saving cooling.

Sound

Ultra-quiet operation reduces noise pollution both indoors and out for more peaceful, comfortable spaces. The 38MURA has sound performance low as 54 dBA.

Built to last

A galvanized steel cabinet with wire fan guard shields these units from exposure to hail, errant soccer balls, lawn equipment and more.

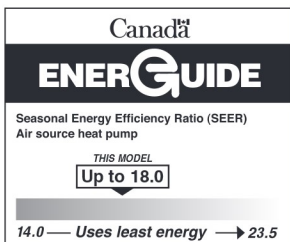

Rest easy with a long warranty

Preferred Series horizontal heat pump offers a 10-year parts limited warranty upon timely registration.²

¹ When matched with 1.5 ton 40MUAA.

² The limited warranty period is five years on parts if not registered within 90 days. Jurisdictions where warranty benefits are not conditioned on registration will automatically receive a 10-year parts limited warranty. See warranty certificate at Bryant.com for complete details and restrictions.
